

Great Scott...

Setting the clocks back an hour and re-living the past sounds cool and all but it ruins afternoon golf. Next Sunday is the end of daylight savings time. That means that by 5:00pm the sun will be almost set. That does not give the working man or women much time to play golf. To help give everyone a chance to enjoy this great weather and last week of daylight savings time, after 3 P.M we will be reducing our 9 hole rate to \$14 for 9 holes with a cart.

Get your group and make a tee time before they fill up. 615-459-2666

We have been asked all year how we have managed to keep the greens in such good shape and we have finally decided to reveal our secret...

We water them with rainbows
