

## TITLE 7

### FIRE PROTECTION AND FIREWORKS

#### CHAPTER 4

#### FIREWORKS

#### SECTION

#### 7-410.

#### **7-410. Regulations governing storing, locating or display of fireworks.**

(1) Placing, storing, locating or displaying fireworks in any window where the sun may shine through glass onto the fireworks so displayed or to permit the presence of lighted cigars, cigarettes, or pipes within one hundred (100) feet of where the fireworks are offered for sale is hereby declared unlawful and prohibited. At all places where fireworks are stored or sold, there must be posted signs with the words "fireworks--no smoking" in letters not less than four (4) inches high. No fireworks shall be sold at retail at any location where paints, oils or vanishes are for sale or use, unless such paints, oils or varnishes are kept in their original consumer containers, nor where resin, turpentine, gasoline or any other flammable substance is stored or sold, if the storage creates an undue hazard to any person or property.

(2) All firework devices that are readily accessible to handling by consumers or purchaser, must have their fuses protected in such a manner as to protect against accidental ignition of an item by spark, cigarette ash or other ignition source. Safety-type thread-wrapped and coated fuses shall be exempt from this provision.

(3) All firework devices sold under a duly issued permit must be located not less than fifty (50) feet from any gasoline dispensing pump.

(4) As permits are temporary for a period not to exceed thirty (30) days, the permit shall state any sales site must be at all times free from litter and debris, including the termination date of authorized selling periods. Violation of this provision, for which citation may issue, may give cause to refuse issuance of another permit for a period not to exceed three (3) years.

(Ord. #14-15, April, 2014 modified)
